

How energy intensive is your institution?

Compare with others in the Lower Mainland & Vancouver Island

5TH ANNUAL PUMA **BENCHMARKING SUMMARY**

For BC Advanced Education: 2017 Calendar Year

saving you energy™

Scope

The sites included in the benchmarks are from the following BC Advanced Education Institutions that subscribe to monthly PUMA utility monitoring software & services:

About PUMA

PUMA comprises a combination of software and services from Prism Engineering that track over 15,000 electrical, natural gas, water, and other fuel accounts for government, commercial, and institutional customers. Since launching online in 2009, more and more organizations have enlisted PUMA to help track and analyze building energy use.

PUMA is currently used by over 20 Energy Managers, and more than 50 organizations across Canada. Our utility tracking software and services save time and money for owners of multiple properties by turning data into actionable information.

About this Report

Each year the PUMA team at Prism Engineering puts together a benchmarking report for school districts, advanced education and municipalities. Based on compiled data from PUMA, this report enables the comparison of similar sites across each sector.

2017 Median Energy Use Intensity

	Energy Use per m ² (EUI)	Number of buildings in sample
Institution	Average 280 ekWh/m²	n=5
Campus	Median 234 ekWh/m²	n=8

How does your institution compare?

For 5 BC Institutions - Calendar Year 2017

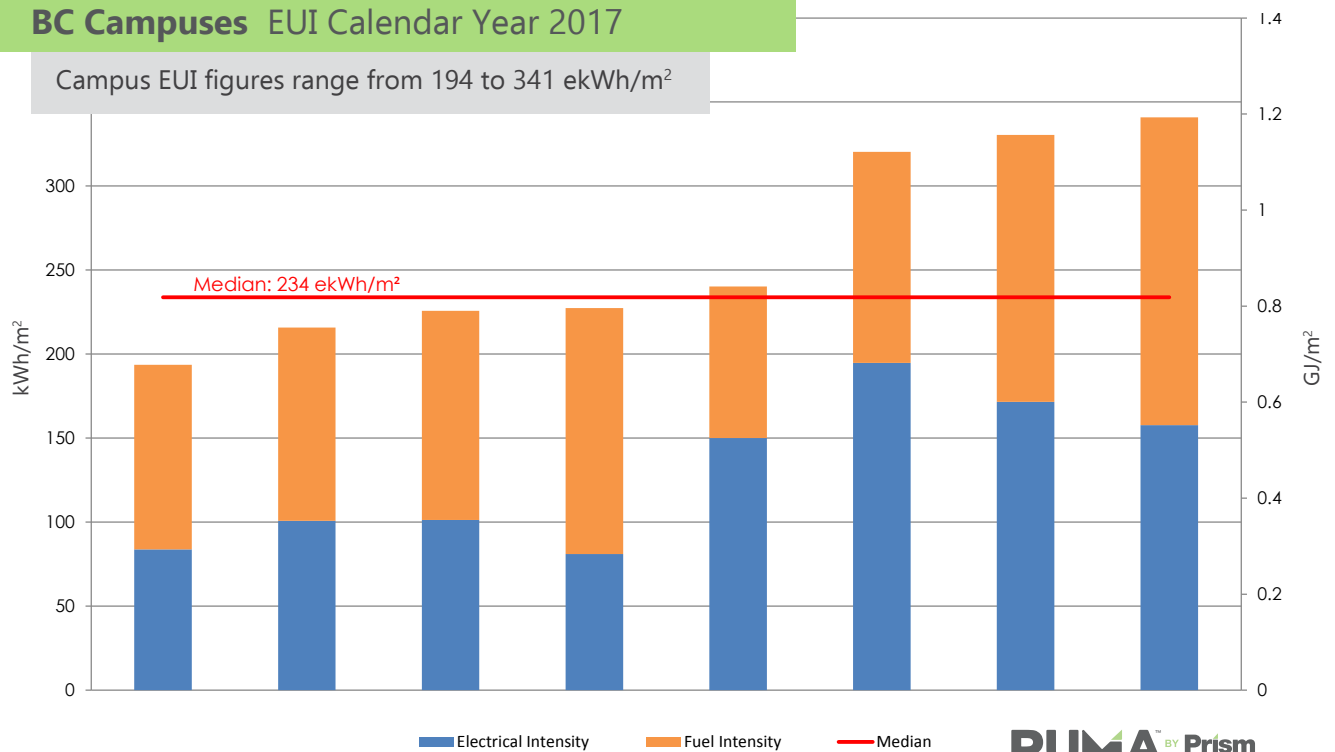

Is your campus better or worse?

BC Campuses EUI Calendar Year 2017

Campus EUI figures range from 194 to 341 ekWh/m²

PUMA is an affordable and effective way to compare the performance of all the buildings in your portfolio, including the ability to normalize for weather.
